Course Description:

You will develop your skills through a variety of practical activities that will prepare you for life and work. You will gain a full qualification.

Learners will:

- Take part with other learners to develop skills for work that they already have as well as some new ones
- Learn how to organise themselves, work as part of a team and take responsibility for themselves and for others
- Build up their self confidence to help them deal with difficult situations and learn how to work with adults.
