Course Description:

Learners will develop their skills through a variety of practical activities that will prepare them for life and work. They will gain a full qualification.

Learners will:

- Take part with other learners to develop skills for work that they already have as well as some new ones
- Learn how to organise themselves, work as part of a team and take responsibility for themselves and others
- Build up their self confidence to help them deal with difficult situations and learn how to work with adults.
