

## **8. PARENT/CARER CONSENTS**

- 8.1 It is important that parents/carers are informed of their son/daughter's participation on L2W programmes, in line with school policies. Most L2W courses are delivered off-site and involve different travel, lunch and, sometimes start and finish times from standard school provision. Many also have additional trips and visits as part of the course (please also see Section 13 Visits and Off-Site Activities). Additionally, it is necessary to have parental permission for any photographs, whether they are used for publicity or as part of the assessment process.
- 8.2 We include these elements within a recommended 'welcome letter' (see Appendix B). The aim behind this letter is to cover as many aspects of the external provision as possible within one communication. If you use your own 'welcome letter' you must ensure that the relevant consents are included. Please note that some providers have their own consent procedures so sometimes it may be necessary to duplicate requests.
